# **CONSOLIDATED FINANCIAL STATEMENTS**

YEARS ENDED JULY 31, 2017 and 2016 (Expressed in Canadian Dollars)

#### INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Stellar AfricaGold Inc.

#### Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of Stellar AfricaGold Inc., which comprise the consolidated statement of financial position as at July 31, 2017, and the consolidated statements of comprehensive loss, changes in deficiency, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Stellar AfricaGold Inc. as at July 31, 2017, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

### Other matter

The consolidated financial statements of Stellar AfricaGold Inc. for the year ended July 31, 2016 were audited by another auditor who expressed an unmodified opinion on those statements on November 25, 2016.

### **Emphasis of matter**

Without qualifying our opinion, we draw attention to Note 1 in the consolidated financial statements which describes matters and conditions that indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

Vancouver, Canada "Morgan & Company LLP"

(Expressed in Canadian Dollars)

#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Stellar AfricaGold Inc. and its subsidiaries (hereinafter the "Company") specialize in exploration of gold mining sites located in Canada and in Republic of Mali and Republic of Guinea, two countries located in the West Africa region. The Company is a public company listed on the TSX Venture Exchange (the "TSX.V"), trading under the "SPX" symbol. The Company was incorporated under the Company's Act of British Columbia in April 2006 and was prorogued under the Canada Business Corporations Act. The Company's registered office and its principal place of business is 4908 Pine Crescent, Vancouver, British Columbia, V6M 3P6.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which presume the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. The recoverability of the amounts expensed for exploration and evaluation assets are dependent upon the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain necessary financing to complete the evaluation and development of commercially viable reserves, and upon future profitable production or proceeds from the disposition of exploration and evaluation assets.

The Company incurred a net loss of \$907,693 (2016 – \$322,329) for the year ended July 31, 2017 and as at July 31, 2017 had a deficit of \$22,824,157 (2016 - \$21,916,464). The Company had a working capital deficiency of \$428,187 as at July 31, 2017 (2016 – \$612,525). These factors may cast significant doubt about the ability of the Company to continue as a going concern.

### 2. BASIS OF PRESENTATION

# a) Statement of Compliance

These annual financial statements of the Company for the year ended July 31, 2017 have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee.

# b) Basis of Measurement

These financial statements have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

# c) Basis of Consolidation

The Company's consolidated financial statements includes the accounts of the parent Company and its subsidiaries. Subsidiaries are entities in which the Company is exposed, or has rights to variable returns from its involvement with the subsidiary and that it has the ability to affect those returns through the power it holds in the subsidiary. All subsidiaries have a reporting date of July 31.

All transactions and balances between companies are eliminated upon consolidation, including unrealized gains and losses on transactions between group companies. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Company.

(Expressed in Canadian Dollars)

# 2. BASIS OF PRESENTATION (CONTINUED)

### d) Basis of Consolidation (Continued)

#### **Subsidiaries**

Details of the Company's subsidiaries at July 31, 2017 are as follows:

Name of subsidiary	Principal activity	Country of Incorporation	Ownership %
Golden Frank Resources Inc.	Mineral exploration in Guinea	Canada	100%
Stellar Pacific Mali	Mineral exploration in Mali	Republic of Mali	100%
Africa Gold Business SARL	Inactive	Republic of Guinea	80%
MGWA Golden Frank, SARL	Inactive	Republic of Guinea	80%

# e) Functional and presentation currency

The consolidated financial statements are presented In Canadian dollars, which is also the functional currency of the parent Company and all subsidiaries.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

# a) Cash and Cash Equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments with maturities within three months held for the purpose of meeting short-term cash commitments rather than for investing purposes. The Company did not have cash equivalents as at July 31, 2017 and 2016.

# b) Available-for-Sale Investments

Investments in public companies have been designated as available-for-sale investments. The investments are reported at fair value based on quoted market prices with unrealized gains or losses excluded from operations and reported as other comprehensive income or loss.

# c) Exploration and Evaluation Expenses

Exploration and evaluation expenses are costs incurred in the course of the initial search of mineral resources before the technical feasibility and commercial viability of extracting mineral resources are demonstrable. The costs directly related to the acquisition of the mineral property rights and the exploration expenditures incurred during the exploration and evaluation phase are expensed.

The Company will capitalize mineral property development expenditures under property and equipment once technical feasibility and commercial viability of extracting mineral resources are demonstrated. Depletion and amortization of mineral deposits and mine development costs are recorded as the minerals are extracted, based on units of production and engineering estimates of mineable resources or reserves. To date, neither the technical feasibility nor the commercial viability of extracting a mineral resource has been demonstrated.

(Expressed in Canadian Dollars)

# 3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# c) Exploration and Evaluation Expenses (Continued)

Although the Company has taken steps to verify title to the mining properties in which it holds an interest, in accordance with industry practices for the current stage of exploration of such properties, these procedures do not guarantee the validity of the Company's titles. Property titles may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

Disposal of interest in connection with mineral option agreements

On the disposal of interest in connection with option agreements, the Company does not recognize expenses related to the exploration and evaluation performed on the property by the optionee. In addition, cash or share considerations received directly from the optionee are credited as a gain on disposal of mining rights in profit or loss.

# d) Property and Equipment

Property and equipment are held at cost less accumulated depreciation and accumulated impairment losses. Cost includes all costs incurred initially to acquire or construct an item of property and equipment. Costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and costs incurred subsequently to add to or replace part thereof.

Depreciation is recognized using the declining balance method, to write down the cost to its estimated residual value. The rates generally applicable are as follows:

Rates	
20%	Office furniture
30%	Computer equipment
20%	Rolling stock
20%	Mining camp

The depreciation expense for each period is recognized in profit or loss.

The residual value, depreciation method and useful life of each asset are reviewed at least at each financial year-end. The carrying amount of an item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property and equipment is included in profit or loss when the item is derecognized.

### e) Impairment of Long-lived Assets

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at a cash-generating unit level.

Whenever events or changes in circumstances indicate that the carrying amount may not be recoverable an asset or cash-generating unit is reviewed for impairment.

An impairment loss is recognized in profit or loss for the amount by which the assets or cashgenerating units carrying amount exceeds its recoverable amount. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less cost to sell and its value in use.

An impairment charge is reversed if the assets or cash-generating unit's recoverable amount exceeds its carrying amount.

(Expressed in Canadian Dollars)

# 3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# f) Tax Credits Receivable

The Company is entitled to a refundable tax credit on qualified Quebec exploration expenditures incurred and refundable credit on duties for losses under the Mining Tax Act. Such credits are recognized as a reduction of the exploration expenses. The Company records these tax credits when there is reasonable assurance with regards to collections and assessments and that the Company will comply with the conditions associated to them.

# g) Provisions and Contingent Liabilities

Provisions are recognized when present obligations resulting from past events, will likely result in an outflow of economic resources from the Company and that the amounts can be reliably estimated. The timing or amount of outflow may be uncertain.

The measurement of provisions corresponds to the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting data, including risks and uncertainties relating to the present obligation. Provisions are discounted when the time value of money is significant.

Provisions are reviewed at each reporting date and adjusted to reflect current best estimates. When possible outflow of economic resources arising from present obligations is considered improbable or remote, no liability is recognized unless it has been taken on the occasion of a business combination.

The Company's operations are governed by government environment protection legislation. Environmental consequences are difficult to identify in terms of amounts, timetable and impact. As of the reporting date, management believes that the Company's operations are in compliance with current laws and regulations.

Site restoration costs currently incurred are negligible. When the technical feasibility and commercial viability of extracting a mineral resource have been demonstrated, a restoration provision will be recognized in the cost of the mining property when there is constructive commitment that has resulted from past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be measured with sufficient reliability.

### h) Income Taxes

Income tax expense comprises of current and deferred tax. Current tax and deferred tax are recognized in net income except to the extent that it relates to a business combination or items recognized directly in equity or in other comprehensive income or loss.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current period and any adjustment to income taxes payable in respect of previous periods. Current income taxes are determined using tax rates and tax laws that have been enacted or substantively enacted by the period-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss.

(Expressed in Canadian Dollars)

# 3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# h) Income Taxes (continued)

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting period the Company reassesses unrecognized deferred tax assets. Deferred income tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority.

# i) Basic and Diluted Earnings (Loss) Per Share

Basic earnings (loss) per share is calculated by dividing the earnings (loss) attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share is calculated by adjusting the earnings (loss) attributable to ordinary equity holders of the Company and the weighted average number of common shares outstanding, the effects of all dilutive potential ordinary shares which include options and warrants.

It is assumed that the dilutive potential ordinary shares were converted into ordinary shares at the average market price at the beginning of period or the date of issue of potential ordinary shares, if later.

# j) Share Capital

Share capital represents the amount received on the issue of shares, less issuance costs, net of any underlying income tax benefit recognized from these issuance costs. When shares are issued on the exercise of options and warrants, the share capital account also comprises the costs previously recorded as contributed surplus and warrants. When shares are issued as consideration for the acquisition of a mineral property they are measured at their fair value according to the quoted price on the date of issue.

# Unit placements

Proceeds from unit placements are allocated between shares and warrants issued on a pro rata basis. Proceeds are allocated to shares and warrants according to their relative weighted fair value. The unit's fair value is determined using the quoted price of the shares on the stock exchange and the warrant's fair value is estimated using the Black - Scholes pricing model.

# Flow-through placements

Issuance of flow-through units represents in substance an issue of ordinary shares, warrants and the sale of the right to tax deductions to the investors. When the flow-through units are issued, the sale of the right to tax deductions is deferred and presented as other liabilities in the statement of financial position. The proceeds received from flow-through units are allocated between share capital, warrants and the liability using the residual method. The liability component recorded initially on the issuance of shares is reversed on renouncement of the right to tax deductions to the investors and when eligible expenses are incurred and recognized in profit or loss as a recovery of deferred income assets.

# **Share-based Compensation**

The share option plan allows Company employees and consultants to acquire shares of the Company. The fair value of options granted is recognized as an employee or consultant expense with a corresponding increase in equity. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee.

(Expressed in Canadian Dollars)

# 3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# i) Share Capital (continued)

# **Share-based Compensation (continued)**

The fair value is measured at grant date, and each tranche is recognized over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option pricing model taking into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense is adjusted to reflect the actual number of share options that are expected to vest.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to the statement of operations and comprehensive loss over the remaining vesting period.

In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured indirectly at the fair value of the share-based payment. Otherwise, share-based payments are measured at the fair value of goods or services received.

# j) Foreign exchange

Foreign currency transactions are translated into the functional currency, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items denominated in foreign currency at year-end exchange rates are recognized in profit or loss. Non-monetary items are not re-translated at year-end and are measured at historical cost (translated using the exchange rates at the date of the transaction). Non-monetary items measured at fair value are translated using the exchange rates at the date when fair value was determined.

### k) Convertible Debentures

The Company classifies convertible debentures into debt and equity components based on the residual method. The liability component is calculated as the present value of the principal and interest, discounted at a rate approximating the estimated interest rate that was estimated would have been applicable to non-convertible debenture at the time the debenture was issued. This portion of the convertible debenture is accreted over its term to the full principle value using the effective interest rate method. The equity element of the convertible debenture comprises the value of the conversion option, being the difference between the face value of the convertible debt and the liability component. Upon maturity, the equity component is reclassified to reserves.

### I) Financial Instruments and Risk Management

### **Financial assets**

The Company classifies its financial assets into one of the following categories, depending on the purpose for which the asset was acquired. The Company's accounting policy for each category is as follows:

Fair value through profit or loss ("FVTPL") - This category comprises derivatives, or financial assets acquired or incurred principally for the purpose of selling or repurchasing in the near term. They are carried in the statements of financial position at fair value with changes in fair value recognized in the statements of operations and comprehensive loss.

(Expressed in Canadian Dollars)

# 3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# I) Financial Instruments and Risk Management (Continued)

# **Financial assets (Continued)**

Loans and receivables - These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are carried at amortized cost less any provision for impairment. Significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default.

Held-to-maturity investments - These assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company's management has the positive intention and ability to hold to maturity. These assets are measured at amortized cost using the effective interest rate method. If there is objective evidence that the investment is impaired, determined by reference to external credit ratings and other relevant indicators, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognized in the statements of operations and comprehensive loss.

Available-for-sale - Non-derivative financial assets not included in the above categories are classified as available-for-sale. They are carried at fair value with changes in fair value recognized directly in other comprehensive income (loss). Where a decline in the fair value of an available-for-sale financial asset constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognized in the statements of operations and accumulated other comprehensive income (loss).

Transaction costs associated with fair value through profit or loss financial assets are expensed as incurred, while transaction costs associated with all other financial assets are included in the initial carrying amount of the asset.

All financial assets except for those at FVTPL are subject to review for impairment at least at each reporting date. Financial assets are impaired when there is objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described above.

## **Financial Liabilities**

The Company classifies its financial liabilities into one of two categories, depending on the purpose for which the asset was acquired. The Company's accounting policy for each category is as follows:

Fair value through profit or loss - This category comprises derivatives, or liabilities acquired or incurred principally for the purpose of selling or repurchasing in the near term. They are carried in the statement of financial position at fair value with changes in fair value recognized in the statement of operations and comprehensive loss.

Other financial liabilities - This category includes amounts due to related parties and accounts payables and accrued liabilities, all of which are recognized at amortized cost.

(Expressed in Canadian Dollars)

# 3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# I) Financial Instruments and Risk Management (Continued)

Disclosures about the inputs to financial instrument fair value measurements are made within a hierarchy that prioritizes the inputs to fair value measurement.

The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.

Financial instruments are exposed to credit, liquidity and market risks. Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Liquidity risks is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Market risk is that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of price risk: currency risk, interest rate risk and other price risk.

Liquidity risk is significant to the Company's statement of financial position. The Company manages these risks by actively pursuing additional share capital issuances to settle its obligations in the normal course of its operating, investing and financing activities. The Company's ability to raise share capital is indirectly related to changing metal and mineral prices and in particular, the price of gold. To mitigate this market risk, management of the Company actively pursues a diversification strategy with its property holdings.

### m) Segment Reporting

The Company presents and discloses segmental information based on information that is regularly reviewed by the chief operating decision- maker (i.e. the Chairman and the Board of Directors). The Company has determined that there was only one operating segment being the sector of exploration and evaluation of mineral resources.

# n) Future Accounting Pronouncements Not Yet Adopted

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective. Management expects that all pronouncements will be adopted during the annual period beginning after the effective dates of the standards but they are not expect to have a significant impact on the consolidated financial statements of the Company.

*IFRS 9 Financial Instruments* - In July 2014, the IASB published IFRS 9 which replaces IAS 39 Financial Instruments: Recognition and Measurement (IAS 39). IFRS 9 introduces improvements which include a logical model for classification and measurement of financial assets, a single, forward-looking "expected loss" impairment model and substantially-reformed approach to hedge accounting. IFRS 9 is effective for annual reporting periods beginning on or after January 1, 2018.

*IFRS 15 Revenue from Contracts with Customers* establishes a five-step model that will apply to revenue earned from a contract, regardless of the type of revenue transaction or the industry. The standard's requirements will also apply to the recognition and measurement of gains and losses on the sale of some non-financial assets that are not an output of the entity's ordinary activities. IFRS 15 is effective for annual periods beginning on or after January 1, 2018.

(Expressed in Canadian Dollars)

# 3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# n) Future Accounting Pronouncements Not Yet Adopted (Continued)

*IFRS 16 Leases* replaces IAS 17 – Leases and requires lessees to account for leases on statement of financial position by recognizing a right to use asset and lease liability. The standard is effective for annual reports beginning on or after January 1, 2019.

### 4. ESTIMATES AND JUDGEMENTS

In preparing the consolidated financial statements, management poses a number of judgements, estimates and assumptions regarding the recognition and valuation of assets, liabilities, income and expenses.

# a) Significant Management Judgement

The following are significant management judgements in applying the accounting policies of the Company that have the most significant effect on the financial statements.

# Recognition of deferred income tax assets and measurement of income tax expense

Management continually evaluates the likelihood that its deferred tax assets could be realized. This requires management to assess whether it is probable that sufficient taxable income will exit in the future to utilize these losses within the carry-forward period. By its nature, this assessment requires significant judgement. To date, Management has not recognized any deferred tax assets in excess of existing taxable temporary differences expected to reverse within the carry-forward period.

### Going concern

The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its ongoing operating expenditures, meets its liabilities for the ensuing year, and to fund planned and contractual exploration programs, involves significant judgement based on historical experience and other factors including expectation of future events that are believed to be reasonable under the circumstances.

# b) Estimation Uncertainty

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

# Share-based payments

To estimate expenses for share-based payments, it is necessary to select an appropriate valuation model and obtain the inputs necessary for the valuation model chosen. The Company estimated the volatility of its own shares and the expected life and the exercise period of options and warrants granted. The model used by the Company is the Black-Scholes valuation model.

# Provisions and contingent liabilities

Judgements and estimates may be used to determine whether a past event has created a liability that should be recognized in the consolidated financial statements or disclosed as a contingent liability. Factors, such as the nature of the claim or dispute, the potential amount to be paid and the probability of the realization of a loss. These factors are sources of uncertainty in estimates.

(Expressed in Canadian Dollars)

# 5. AVAILABLE-FOR-SALE INVESTMENTS

On March 14, 2017 the Company sold the Eastmain Properties for 350,000 shares of Amex Exploration Inc. The fair market value of these shares on March 14, 2017 was \$0.185 per share and as of July 31, 2017 the fair market value was \$0.12 per share. The value of these shares was adjusted to the fair market value as at July 31, 2017.

-				Accumulated Other
			Market Value at	Comprehensive
	Number of Shares	Cost	July 31, 2017	Loss
Amex Exploration Inc	350,000	\$64,750	\$42,000	(\$22,750)

### 7. PROVISION

	2017		2016
Balance, beginning of the year	\$ 140,	000 \$	140,000
Reversal	(140,	000)	-
Balance, end of the year	\$	- \$	140,000

A provision for investor indemnification was made in the year ended July 31, 2007 for flow-through expenditures that were renounced to investors but not incurred in accordance with the agreements. The investors have not pursued indemnification since that time. Management has determined that the outflow of economic resources is remote and in the year ended July 31, 2017 the Company reversed the provision.

### 8. CONVERTIBLE DEBENTURES

On September 22, 2016, the Company closed convertible debentures in the amount of \$150,000. The debentures bear interest at the rate of 10% per annum, payable semi-annually, by the issuance of common shares of the Company and matures 36 months from the date of issue. During the first 12 months, the debentures are convertible, at the option of the holder, into common share units at a price of \$0.05 per unit; each unit comprised of one share and one-half common share purchase warrant. One full warrant allows the holder thereof to acquire one additional common share of the Company at a price of \$0.10 for a 2-year period. Between the 13th month and the 36th month from the closing of the private placement, the debentures are convertible, at the option of the holder, into common shares at a price of \$0.10 per common share and one-half common share purchase warrant. One full warrant allows the holder thereof to acquire one common share of the Company at a price of \$0.15 for a 2-year period.

The convertible debentures were allocated as follows:

Liability portion of convertible debentures	\$ 120,000
Equity portion of convertible debentures	
(recorded as contributed surplus)	30,000
Total convertible debentures issued	\$ 150,000

During the year ended July 31, 2017, the Company accrued \$12,863 in interest related to these convertible debentures. On June 21, 2017, the Company settled \$7,500 of this accrued interest through the issuance of 150,000 common shares of the Company using a weighted average share price of \$0.05.

### Convertible Debentures as of July 31, 2017:

Liability portion on issuance	\$ 120,000
Accretion for the year ended July 31, 2017	7,946
	\$ 127,946

Subsequent to year end, the Company issued 200,000 shares of common shares upon the conversion of \$10,000 of convertible debentures and issued an additional 8,067 shares to satisfy accrued interest of \$403 on the debenture to the conversion date. All shares were issued at an issue price of \$0.05 per share.

(Expressed in Canadian Dollars)

### 9. SHARE CAPITAL

#### i) Authorized

Unlimited number of shares without par value. All shares are equally eligible to receive dividends and the repayment of capital, and represent one vote each at the shareholders' meetings of Stellar AfricaGold Inc.

# ii) Issued During the Year Ended July 31, 2017

On August 16, 2016, the Company completed a non-brokered private placement of 7,900,000 units for cash proceeds of \$395,000. The offering was comprised of 6,715,000 flow-through units and 1,185,000 common share units. Each unit is composed of 1 common share and 1 share purchase warrant. The warrants can be exercised at a price of \$ 0.10 for a period of 2 years. In connection with this private placement the Company paid finders' fees of \$13,000 cash and issued 450,000 brokers warrants. Each brokers warrant entitles the holder to purchase one common shares at a price of \$0.10 for a period of 2 years following the closing date.

On January 25, 2017, the Company completed the buy-back of the remaining 49% interest in the advanced Balandougou Gold Project in Guinea. UltraGold Holding LLC ("UltraGold) will convey to GoldenFrank Resources Inc. ("Goldenfrank"), a 100% owned subsidiary of the Company, all of UltraGold's 49% right, title and interest in and to the Balandougou project. The Parties also agreed to terminate the Balandougou Joint Venture Agreement dated February 2009, and in consideration of the termination of the joint venture the Company issued 750,000 common shares at a price of \$0.05 per share to UltraGold. UltraGold will retain a 1.5% net smelter return royalty capped at US\$3.0 million at which time the royalty terminates.

On May 16 and June 9, 2017 respectively, the Company closed a non-brokered private placement in two tranches of 8,000,000 and 9,010,000 units at a price of \$0.05 per unit, for aggregate proceeds of \$850,500. Each unit is comprised of one common share and one share purchase warrant entitling the holder to purchase one additional common share at an exercise price of ten cents for a period of 12 months. The Company paid finders' fees of \$15,140 and issued 302,800 broker warrants entitling the holder to purchase up to 302,800 common shares at a price of \$0.10 per common share for 12 months from the date of issue. 4,900,000 of these units were issued to related parties of the Company.

On June 21, 2017, the Company settled \$7,500 of accrued interest on its convertible debentures (Note 8) through the issuance of 150,000 common shares of the Company using a weighted average share price of \$0.05.

### iii) Issued during the year ended July 31, 2016

On May 12, 2016, the Company closed a private placement, raising gross proceeds of \$ 150,000 through the issuance of 7,500,000 units priced at \$0.02 each. Each unit consists of 1 common share and 1 purchase warrant, each warrant entitling the holder to purchase one additional common share, for a period of 36 months from closing, at a purchase price of \$ 0.05 each. In connection with the private placement, the Company paid a commission fee to Sherbrooke Street Capital in the amount of \$4,000 and issued 200,000 finder warrants. Each finder warrant entitles the holder to purchase one common share, at a price of \$ 0.05, for a period of 3 years following the closing date. The Company also paid finder fees in the amount of \$5,000. The 7,500,000 units were issued to related parties of the Company.

(Expressed in Canadian Dollars)

# 9. SHARE CAPITAL (CONTINUED)

# iv) Warrants

Outstanding warrants entitle their holders to subscribe to an equivalent number of ordinary shares, as follows:

	2017			2016			
	Average Number of exercise warrants price		Number of warrants	Average exercise price			
Balance, beginning of the year	9,530,000	\$	0.10	4,456,620	\$	0.10	
Granted	24,910,000		0.10	7,500,000		0.05	
Expired	(2,030,000)		0.01	(2,426,620)		0.01	
Balance, end of the year	32,410,000	\$	0.10	9,530,000	\$	0.06	

The number of outstanding warrants which could be exercised for an equivalent number of ordinary shares is as follows:

_	20	)17	2016		
Expiration date	Number	Exercise price	Number	Exercise price	
August 16, 2018	7,900,000	\$ 0.10	-	\$ -

	952,800	\$	0.09	200,000	\$	0.05	

(Expressed in Canadian Dollars)

# 9. SHARE CAPITAL (CONTINUED)

# vi) Stock Options

The Company has a rolling stock option plan under which options to acquire common shares of the Company are granted to directors, officers, employees and consultants of the Company. The maximum number of options permitted is limited to ten percent (10%) of the issued capital of the corporation from time to time.

The fair value of the options granted was determined using the Black-Scholes option pricing model. The assumptions used to calculate the fair value of the options were based on risk free rate of 1.17-1.24%, expected volatility of 148%, expected life of 5 years and a dividend yield of 0%. The options vest immediately on grant.

The Company's share options are as follows for the reporting periods presented:

	2017			2016		
	Number of options	exe	rage cise ice	Number of options		verage xercise price
Balance, beginning of the year Granted Expired/forfeited	725,000 1,550,000 (175,000)	\$	0.26 0.05 0.26	775,000 - (50,000)	\$	0.32
Balance, end of the year	2,100,000	\$	0.05	725,000	\$	0.26
Exercisable options, end of the reporting year	2,100,000	\$	0.05	725,000	\$	0.26

# The table below summarizes the information related to share options as at July 31, 2017:

	Exercisable Options					
	Wei	ighted	Weighted		Wei	ghted

(Expressed in Canadian Dollars)

### 10. LOSS PER SHARE

During the year, in calculating the diluted loss per share for the year ended July 31, 2017, dilutive potential ordinary shares such as share options and warrants have not been included as they would have the effect of decreasing the loss per share. Decreasing the earnings per share would be antidilutive.

The basic and diluted loss per share has been calculated as follows.

	2017	2016
Net loss for the year Weighted average number of shares in circulation	\$ (907,693) 42,489,490	\$ (322,329) 25,703,394
Basic and diluted loss per share	\$ (0.02)	\$ (0.01)

### 11. SUPPLEMENTAL CASH FLOW INFORMATION

The changes in working capital items are detailed as follows:

	2017	2016
Sales taxes receivable	\$ (9,093)	\$ 7,258
Prepaid expenses	749	2,812
Trade and other payables	(114,016)	198,482
	\$ (122,360)	\$ 208,552

# 12. EXPLORATION AND EVALUATION EXPENDITURES

	2017	2016
EXPLORATION EXPENDITURES		
Acquisition costs – expensed	\$ 37,500	\$ 2,774
Geology	56,082	59,482
Geophysics, milling and sampling	116,312	39,750
Geologist and professional fees	346,513	-
General exploration and campsite expenses	178,362	20,447
TOTAL EXPLORATION EXPENSES	\$ 734,769	\$ 122,453

On January 25, 2017, the Company completed the buyback of the remaining 49% interest in the advanced Balandougou Gold Project in Guinea. UltraGold Holding LLC ("UltraGold) will convey to GoldenFrank Resources Inc. ("Goldenfrank"), a 100% owned subsidiary of the Company, all of UltraGold's 49% right, title and interest in and to the Balandougou project. The Parties also agreed to terminate the Balandougou Joint Venture Agreement dated February 2009, and in consideration of the termination of the joint venture the Company issued 750,000 common shares at a price of \$0.05 per share to UltraGold. UltraGold will retain a 1.5% net smelter return royalty capped at US\$3.0 million at which time the royalty terminates. The fair value of the shares \$37,500 was charged to the statement of comprehensive loss.

On March 14, 2017 the Company sold the Eastmain Properties for 350,000 shares of Amex Exploration Inc. The Company retained a 1.5% net smelter return royalty of which 50% (0.75%) may be purchased by Amex Exploration Inc. for \$750,000. The Company has recorded a gain on the sale of these properties of \$64,750.

(Expressed in Canadian Dollars)

# 13. INCOME TAXES

	2017	2016
Statutory Canadian corporate tax rate	26%	26%
Expected current income tax recovery	\$ (266,000)	\$ (89,000)
Non-deductible permanent differences	20,000	3,000
Share issuance costs	(14,000)	-
OCI – unrealized loss on investments	(7,000)	-
Change in estimate and other	222,605	35,383
Change in deferred tax assets not recognized	31,000	41,000
Deferred income tax recovery	\$ (13,395)	\$ (9,617)

The significant components of the Company's deferred tax assets are as follows:

	2017		2016	
Non-capital loss carry-forwards	\$ 967,000	) \$	697,000	
Share issue costs	16,00	)	14,000	
Property and equipment	12,00	)	12,000	
Mineral resource properties	984,000	)	1,236,000	
Available-for-sale investments	7,000		-	
	1,986,00	)	1,959,000	
Unrecognized deferred tax assets	(1,986,00	0)	(1,959,000)	
	\$	-	\$ -	

The Company has not recorded deferred income tax assets based on the extent to which it is more likely than not that sufficient taxable income will not be realized during the carry-forward period to utilize these net deferred income tax assets.

The Company has available non-capital losses for Canadian income tax purposes of approximately \$1,930,000 which may be carried forward to reduce taxable income in future years, if not utilized, expiring in years from 2026 to 2037.

(Expressed in Canadian Dollars)

### 14. RELATED PARTY TRANSACTIONS

The Company's related parties include key management officers and companies held by key management officers. Unless otherwise stated none of the transactions incorporated special terms and conditions and no guarantees were given or received.

Trade and other payables includes \$442,930 (2016 - \$432,691) due to these related parties. These amounts are unsecured, bore no interest, and are due on demand. Convertible debentures include \$10,000 (2016 - \$Nil) to a related party.

# Transactions with key management personnel

Key management personnel of the Company are members of the Board of Directors and the management. Key management personnel compensation comprised the following:

	2017			2016	
Short-term key management benefits:					
Consulting & management fees	\$	142,915	\$	-	
Employee benefits expense		60,000		56,830	
Share-based payments		57,000		-	
Total compensation	\$	259,915	\$	56,830	

Furthermore, the Company reimbursed exploration costs incurred for the Company totaling \$Nil (\$52,316 as at July 31, 2016) to a company held by an officer. This amount includes a 15% management fee.

# 15. CAPITAL MANAGEMENT

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern;
- to increase the value of the assets of the business; and
- to provide an adequate return to owners of the parent.

These objectives will be achieved by identifying the right exploration projects, adding value to these projects and ultimately taking them through to production or sale and cash flow, either with partners or by the Company's own means. The Company monitors capital on the basis of the carrying amount of equity.

The Company is not exposed to any externally imposed capital requirements except when the Company issues flow-through shares for which proceeds are committed for exploration work.

The Company finances its exploration and evaluation activities principally by raising additional capital either through private placements or public offerings.

When financing conditions are not optimal the Company may enter into option agreements or other solutions to continue Its activities or may slow its activities until conditions improve.

No changes were made in the objectives, policies and processes for managing capital during the reporting periods.

(Expressed in Canadian Dollars)

# 16. FINANCIAL INSTRUMENT RISK DISCLOSURES

The Company is exposed to various risks in relation to financial instruments. The Company's financial assets and liabilities are summarized below. The main risks the Company is exposed to are credit risk and liquidity risk.

The Company focuses on actively securing short to medium-term cash flows by minimizing the exposure to financial markets. The Company does not actively engage in the trading of financial instruments for speculative purposes.

The most significant financial risks to which the Company is exposed to are described below:

### Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. As at July 31, 2017 and 2016, the Company's maximum exposure to credit risk is limited to the carrying amount of financial assets at the reporting date, as summarized below:

	2017		2016	
Cash and cash equivalents	\$	38,474	\$ 204,028	
Carrying amounts	\$	38,474	\$ 204,028	

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

# Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has financing sources such as private and public investments for a sufficient amount. Over the past period, the Company has financed its exploration and evaluation programs, its working capital requirements and acquisitions of mining properties through private and flow-through financings.

The Company's trade and other payables all contractually mature within three months, except for amounts due to related parties which are payable on demand.

The carrying amounts and fair value of financial Instruments presented in the consolidated statement of financial position are as follows:

·	2017		2016		
	Carrying amount	Fair value	Carrying amount	Fair value	
FINANCIAL ASSETS Cash and cash equivalents Available-for-sale investments	\$ 38,474 42,000	\$ 38,474 42,000	\$ 204,028	\$ 204,028	
FINANCIAL LIABILITIES Trade and other payables Convertible debentures	481,174 127,946	481,174 127,946	559,813 -	559,813 -	

(Expressed in Canadian Dollars)

#### 17. CONTINGENCIES AND COMMITMENTS

- a) The Company may be liable for unpaid Part XII.6 tax on unspent flow-through renunciations related to financings obtained in 2007. The amount of estimated interest and penalties is not determinable, and management has concluded that outflow of economic resources is remote. As at July 31, 2017, \$55,950 is accrued for Part XII.6 taxes.
- b) The Company issued flow-though shares in the amount of \$335,750 during the year ended July 31, 2017. The Company is committed to spend this money on exploration work on its Quebec mineral properties by December 31, 2017 before incurring Part XII.6 tax and extending the deadline to December 31, 2018. As at July 31, 2017, the Company is obligated to spend \$60,560.

### **18. SUBEQUENT EVENTS**

- a) On August 22, 2017, the Company issued to one debenture holder 200,000 shares and 100,000 warrants upon conversion of \$10,000 of a total \$150,000 of convertible debt and issued to that debenture holder a further 8,067 shares for accrued interest to the conversion date, all at a price of \$0.05 per share. The warrants are exercisable at \$0.10 until August 22, 2019.
- b) On November 10, 2017, the Company received an unsecured loan in the amount of US\$400,000 bearing interest at the rate of 10% per annum. Interest is capitalized until June 30, 2018 and thereafter repayable in blended payments (principal and interest) over 16 months. The loan is collaterally guaranteed by the Company. The Company also granted to the lender a loan bonus in the form of a share purchase warrant to acquire 1,000,000 shares at \$0.05 until November 10, 2019.
- c) On November 14, 2017, the Company granted 3,492,000 incentive stock options exercisable at a price of \$0.05 per share until November 14, 2022. On November 21, 2017, 500,000 incentive stock options were voluntarily surrendered.
